Searching other resources for the identification of randomized controlled trials

Journal Alerts: Current activity

The table of contents of the journals listed below are received as alerts for pre-publication and as each new issue is published. The table of contents is screened and relevant studies downloaded.

- American Journal of Transplantation
- American Journal of Kidney diseases
- BMC Pediatrics
- BMC Nephrology
- BMC Urology
- Clinical Journal of the American Society of Nephrology: CJASN
- Critical Care
- Journal of the American Society of Nephrology
- Kidney International

Kidney Conferences: Current activity

The conferences listed below are currently searched for conference abstracts.

- **American Society of Nephrology Kidney week**
  - The published abstract issue in PDF is searched using the terms *randomized*, *randomised*, *randomly*, *placebo*.
- **ISN World Congress of Nephrology (annual)**

EMBASE now indexes conference proceedings. The conferences listed below are now searched in EMBASE each year. They are searched using the name of the conference in the journal field and ‘random$’ as a text word (in title & abstract). See example below.

**American Transplant Congress (ATC) (annual)**

1. American Transplant Congress.so.
2. random$.tw.
3. and/1-2 (limited 3 to year of conference)

**American Transplant Congress (ATC) [annual]**

- Years searched: 2000-current

**Australian and New Zealand Society of Nephrology (ANZSN) [annual]**

- Years searched: 1983-current

**European Society for Organ Transplantation Congress (ESOT) (every 2 years)**

For the years searched and the source of the above conference proceedings, see below under Journal and Conference Proceedings: Previous activity.
Journals and Conference Proceedings: Previous activity

The list below details journal and conference proceedings searched (previously known as HANDSEARCHING) by Cochrane Kidney and Transplant (CKT) for the identification of randomized controlled trials for the CKT Register of Studies. Handsearching has now been mostly replaced by electronic database searching and electronic screening of journal table of contents and other alert systems.

Those journals and conference proceedings that are now searched electronically are highlighted in red. This list is currently being updated. Only those journals and conferences that are highlighted in red are updated on this list.
